

- die-cast zinc alloy frames
- with VDE ground contacts
- possibility of mounting female and male modular units on the same frame
- frames supplied with lock-in tab to attach units
- polarisation on frames
- code pins CR...CX

Warning

the module support frames are marked:

- with upper-case letters **A-B, A-C, A-D** and **A-F** (for use in hoods)
- with lower-case letters **a-b, a-c, a-d** and **a-f** (for use in housings)

Positioning the modules in the frames according to the respective letters is ensuring the specular assembly of modules, for which the hood will be coupled correctly to the housing.

When two or more identical connectors of the MIXO series are used, coded pins are used prevent incorrect coupling (CR...CX series).
